

Permission to Publish Student Images

This form will be used for the duration of your child's schooling at Kilmore Primary School

Kilmore Primary School like to celebrate the efforts of our students by publicising their participation in school events and their achievements in our school newsletter, on the school website and occasionally through the local newspaper. Photographs of students are often included.

At Kilmore Primary School, student images are often used to:

- Record student participation at school and in school events or performances
- Celebrate student effort and achievement
- Promote the school and events held by the school

Student images will only be used with the consent of parents/caregivers. If students are to be individually identified, first names only are published.

Parents/guardians should be aware that we allow parents to record school performances of their own child/ren as this creates a memento that can be shared with other family members. This is with the understanding the images including other children are not shared further.

While we understand that privacy matters are a concern for a small number of families we do encourage you to grant permission to publish: without this permission your child will not be included in the photographic records of school events which is not necessarily a good outcome.

If you have any further questions about how photographs of your child or their work may be used, please contact the school to discuss these concerns.
